Subject: GE Model

I understand that John Haggard and Ann Klee will be meeting with Walter and Paul Simon this afternoon at 2:00 pm. I also understand that this meeting relates to EPA's decision yesterday in declining to provide GE's new PCB fate and transport model and associated report to the peer review panel. GE will likely try to put as much pressure as possible on EPA to get their model before the peer review panel before the panel draft report comes out in late July.

I just want to let you know that we support your decision not to provide the model to the Peer Review panel. If we can be of any assistance, let me know.
